An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes to the drawings have been approved by the Examiner and agreed upon by Applicant:

IN THE DRAWINGS:

Label Figures 1 and 2 as "Prior Art".

In order to avoid abandonment of the application, Applicant must make these above agreed upon drawing changes.

Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Joe Muncy on 11/2/2004.

The following is an Examiner's Statement of Reasons for Allowance: The Prior Art of Record, which includes Applicants' Figures 1 & 2 and the related text, discloses that arc discharge detection, caused by abnormal conditions, within a high voltage output zone of an apparatus, and the resulting protection thereof, is known. However, the claimed combination found within Independent Claim 1, which includes the use of an electrode plate, a voltage switch unit for receiving the discharge signals from the plate and transforming the signals, a rectification unit and a trigger unit is not disclosed nor suggested by the Prior Art of Record.

Art Unit: 2836

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
